Vertical bandsaw

Description

Vertical bandsaw with variable speed. Solid steel frame and well finished. This bandsaw was developped especially for cutting small to medium series of material. Used for making (very) long cuts, cutting very wide material and cutting at an angle. Length cuts in bar materials and profiles can be made easily with this machine. Can also be used for contour sawing and notching.
Less common sizes such as a half bar, triangular bar and six sided bar can be made with this bandsaw. Wide variety of saw blades available, from fine to coarse.
With this machine you can increase production, because it saws through all sorts of (difficult) materials very fast. Hardly any vibrations, which makes for higher precision cuts and longer life-span of the blades. With integrated welding unit, machine light and material stop. Optional table feed available.

Properties:
ergonomic operation
iron tilting table
stepless blade speed
blade speed indication

Extra information

Item number	16601	
Model	HU 1610 VBS Super	
EAN	8718242078184	
CBS Statistics number	84615011	
Article group	HUVEMA Machinery Industry	
Brand	Huvema	
Features	Diameter wheel	408 mm
	Engine power	1,5 kW
	Table dimensions	550 x 600 mm
	Table tilt	R-15 , L-12, V&A-8 °
	Table height	1000 mm
	Saw blade dimensions	3170 x 8 x 0,65 14T mm
	Max. blade thickness	16 mm
	Saw speed	20-80/250-1000 m/min
	Voltage	400 V
	Weight	410 kg
	Capacity	396 x 255 mm
	Machine dimensions	940 x 675 x 1840 mm
Article group code	1688982
