

Pozidriv screwdriver

Description

Pard Pozidriv screwdriver is a commonly used screwdriver. This type of screwdriver has a cross head with extra star (four extra ribs). As a consequence, this type of screwdriver has a little more grip, which prevents the screwdriver to release from the screw. When using the correct Pozidriv screwdriver the screw will remain in the bit while keeping the screw horizontal. The Pard Pozidriv screwdrivers are made of chromium vanadium and manufactured according to the current DIN standard. The professional screwdrivers are convenient, lightweight and have a long service life. The screwdrivers are made of impact-resistant, unbreakable grip is made of multicomponent material. With proper application they are practically unbreakable. Great for everyday use and absolutely no home depot quality!

Extra information
