

Slotted screwdriver insulated 1000V

Description

With these insulated slotted screwdrivers, screws can be easily and quickly applied and removed. This type of screwdriver is usually used when screwing in softer materials. These screwdrivers are ideally suited for electrical work and safe to a voltage of 1000V. The Pard insulated flat head screwdrivers are made of chromium vanadium and manufactured according to the current DIN standard. The professional screwdrivers are convenient, lightweight and have a long service life. The grip is made of impact-resistant, unbreakable multicomponent material. With proper application, the screwdrivers are practically unbreakable.

Extra information

Item number	PA713055N	
Model	PA713055N	
EAN	8718242109208	
CBS Statistics number	82034000	
Article group	K7 - Hand Tools	
Brand	PARD	
Features	Working length	125 mm
	Overall length	240 mm
	Weight	0,087 kg
	Size	5,5
Article group code	685512
