

Industrial drilling machine

Description

Low-noise column drill of German top quality with very high accuracy. Equipped with variable speed with digital speed readout. This UNIMAX 2S by Maxion is characterised by its high quality, made possible by the knowledge and experience of the German manufacturer. The UNIMAX 2S has a 20 mm drilling capacity. In addition, this V-belt driven drill has a wide speed range adjustable with potentiometer, which makes drilling in various types of material no problem. The table is height-adjustable and/or rotatable. Despite its powerful engine, this machine is equipped with a 230V connection, making this drill suitable for every workshop! The UNIMAX 2S is standard equipped with a left/right spindle movement and is also available in a table version and/or with TAP device.
