

Roller conveyor - 2 metres

Description

You can use this versatile roller conveyor wherever you need extra workpiece support! This roller conveyor is universally applicable for feeding and removing long and heavy workpieces with various types of machines, such as band saws, circular saws, drilling machines, etc. The ball-bearing rollers slide your workpieces effortlessly over the roller table. The height-adjustable legs also allow you to adjust the stand-up height from 650 mm. to 1000 mm.

The roller table is equipped with solid and robust steel rollers and has a length of 2 metres. Also available in 1-metre and 3-metre versions, making it applicable in many rooms. The roller conveyor comes with 2 pairs of legs. With mounting brackets, it is possible to link several roller conveyors together. This roller conveyor will surely become one of the most useful and versatile tools in your workshop, making it a good investment!

Features:

- Universally applicable
- Available in various lengths (1 metre=art. 16821 / 3 metres=art. 16823)
