

PPE Lockers

Description

Locker cabinet of European manufacture. With welded construction, made of 0.70 mm steel plate. Suitable for 6 persons. Each compartment is fitted with plastic clothes hooks. The doors are fitted with concealed hinges, ventilation slots, a label holder and provision for padlocking. Electrostatically powder coated. Includes plastic feet to prevent contact with wet floors.

Convenient locker for safe storage of personal belongings in various applications. With its double design (bottom and top compartments), the K6056 is ideal for saving space.

Features:

Colour frame RAL 7035

Colour doors RAL 5015

Powder coated

Ventilation holes

Label holder

Plastic feet
