The professional sawing machine HU 210 AC has a European design. Equipped with automatic sawing function up to 185 mm round sawing capacity. The machine is equipped with an easily manually adjustable saw blade tension, a clamp with quick-clamping capability and the possibility of mitre cutting. Thanks to the heavy-duty sawing arm there are no vibrations during sawing. The sawing pressure is adjustable by means of a hydraulic cylinder. Besides lowering the saw blade, the speed of the saw blade can also be adjusted in 2 steps. The machine can be adjusted both manually and automatically with an automatic cut-off after sawing through material.
