

Set with 5 HG diam. files

Description

Set with 5 high quality diamond files. With universal grit D107 (according to FEPA standard). The hard chrome-plated compound ensures a long service life and is highly wear-resistant. Suitable for the professional machining of workpieces/tools in machine and mould construction. Can be used for steel, hardened steel, tungsten carbide and ceramic/glass materials. Supplied complete in a plastic sleeve to protect the files.

Properties:

- 1x 2612/D... lacquer
- 1x 2632/D ...triangle
- 1x 2642/D ...square
- 1x 2652/D ...hemispherical
- 1x 2662/D ...round.

Extra information
