

Lift table with brake function - 1000 kg load capacity

Description

Sturdy and robust mobile work table/listing table, equipped with an innovative hydraulic system. Very suitable for lifting, moving and handling various materials and goods, enabling safer working even when lifting heavy materials. In addition, this mobile lift table can also be used as a workbench for assembly, stacking or machine feeding. The fully manual lift table can be easily moved thanks to its wheels and fixed handle.

The hydraulic system increases safety and protects your goods, the lowering speed remains low regardless of the weight of the load! Two castors with brakes help to stop the scissor lift table at a certain position during loading and unloading, preventing the danger of the lift table slipping. Castors with anti-collision frame prevent contact objects from being damaged.

Features:

- With brake function
- Lifting by foot pedal
- Lowering by hand control,
- High-quality product
- All-in-one load transporter
- Innovative design complying with standard EN1570:1999

Extra information

Item number	41006	
Model	MTL 100	
EAN	8718242197793	
CBS Statistics number	84623999	
Article group	HUVEMA Workshop Equipment	
Brand	Huvema	
Features	Max. bearing strength	1000 kg
	Table size	1016 × 510 mm
	Max lifting height	990 mm
	Min. lifting height	380 mm
	Number of strokes	< 82
	Diameter wheel	125 x 50 mm
	Weight	140 kg
Article group code	1161161
