

# Welding helmet

## Description

Automatic helmet mask ideal for MMA, MIG-MAG and TIG welding with external darkening adjustment (DIN 4/5 ÷ 9/9÷13).

The LCD liquid crystal filter automatically darkens when the welding arc is running and quickly returns to its transparent status when the arc is switched off; this means the operator does not need to lower and raise his mask during operations and allows him to work with both hands free.

It is not only fitted with a filter sensitivity adjuster depending on the welding process being carried out, but also has an external adjuster which can delay the time between darkening and lightening phases when the arc welding has been completed, according to the level of brightness of the piece.

Features:

- light and comfortable to wear,
- adjustable automatic darkening filter,
- XXL viewing area,
- 4 sensors,
- dark-light delay adjuster,
- solar cell powered,
- transparent glass protection filter.

Optional:

External glass protection 134x114mm Kit 2 pcs cod.T802939

Internal glass protection 96x104mm Kit 2 pcs cod.T802951

## Extra information

Item number	T802937	
Model	VANTAGE GREY XXL MMA/MIG-MAG/TIG HELMET	
EAN	8004897966946	
CBS Statistics number	84623999	
Article group	Products still to be classified	
Brand	TELWIN	
Features	Control modes	5-9/9-13 DIN
	Optical class	1/1/1/2
	Switching time dark light	0,1 ms
	Dark light delay	0,1-1 s
	Light	4 DIN
	Operating temperature (min-max)	-5 - 55 °C
	TIG	>2 A
	MIG-MAG	*
	MMA	*
	Field of view	100 x 93 mm
Weight	0.54 kg	
Article group code	1643546
