# Dust extractor HU 75 S

## Description

---

Dust extraction for 75 mm belt sanders.  
The HU 75 Dust can be used on the HU 75 S (16650).

This 550-watt extractor can be purchased separately and connected to the HU 75 S. The extractor comes with a collection bag and has a large capacity to collect dust and other particles. This ensures that the work area remains tidy and less dust particles enter the working environment.
