

Micro air grinder

Description

This powerful pneumatic mini die grinder comes complete with a 3 mm. and 6 mm. chuck. The device is lightweight, compact and very handy, giving you good control when grinding, sanding, and polishing. Suitable for precise machining of workpieces even when you are limited in space.. The grinder has a maximum idling speed of 35000 rpm and can be used with all types of grinding points. Particularly suitable for grinding, sanding, deburring, milling, roughing and polishing metal and other materials. The device is easy to operate using a practical turning mechanism and is equipped with an air outlet via the soundproof hose. A professional stud grinder with a favourable price/performance ratio!

Made of precision and durable components.

With many specialties as a result:

- light and pen-shaped design
- small volume
- high rotational speed
- low noise
- large torque
- low air consumption
- light and stable

Features:

- Suitable for 3mm and 6mm capacity collets.
- Roll type throttle for instant speed adjustment.
- Built-in muffler for quiet operation.
- Ultra-precision bearings support the rotating parts for real running.
- Air motor for high speed operation, less heating.

Extra information

Item number	21111009	
Model	PS 035-S	
EAN	8718242560238	
CBS Statistics number	84623999	
Article group	TCE Machines, Lubricants & Accessories	
Brand	Huvema	
Features	Speed	35000 rpm
	Air inlet	1/4"
	Air consumption	0,34 m³/min
	Air pressure	6,2 bar
	Air hose diameter	5 mm
	Collet	3 & 6 mm
	Length	175 mm
	Damped vibration	< 2,5 m/s²
	Sound level	82 dB(A)
	Weight	0,5 kg
Article group code	1816247
