

Electric winch 200/400kg

Description

Electric winch for lifting and pulling with remote control PE412G

When the winch is used without a pulley, it can lift up to 200 kg; when the pulley is engaged, the maximum lifting capacity becomes 400 kg. The winch console consists of a powder-coated steel plate with an aluminium drive housing.

Overload protection.

Emergency switch with manual reset button

Double automatic safety limit switch for ascent and descent

Overload protection

Extra information

Item number	V1655157	
Model	1655157	
EAN	8004878682438	
Article group	HUVEMA Webshop Machines & Equipment	
Brand	Valex	
Features	Power	1000 W
	Lifting height	12 / 6 m
	Capacity	200 / 400 kg
	Automatic brake	yes
	Anti rotation line	yes
	Weight	15,8 kg
Article group code	1918282
