

Lathe machine 410x1500 mm with digital readout

Description

The Huvema PROFI series of lathes is an entry-level series of professional lathes from Huvema. Easy to operate, complete in one purchase, solid and affordable, that is what characterizes the Huvema PROFI series. PROFI lathes are the workshop lathes when production is not a necessity.

PROFI lathes are designed with a precision ground and induction hardened bed. The machines have a sturdy base, making them very stable. Operation is very user-friendly, for both small and large sizes. In addition, the machines are supplied complete with 3 claws, 4 claws, travelling, stationary steady, digital readout and cooling. Despite these features, the PROFI series is priced so competitively that it is a match for many workshops, schools and small industries.

Obviously, the PROFI lathes meet the latest CE directives, all to make safe working a standard.

Standard included with this PROFI lathe:

- Self-centering 3-jaw chuck
- Independent 4-jaw chuck
- Adjusting plate
- Stationary steady
- Travelling steady
- Digital readout
- 4-way holder for turning chisels
- Work lamp
- Protective covers
- Cooling system
- Machine maintenance tool set

Optional for the PROFI lathe:

- Other chucks
- Variable speed
- Quick-change chisel holder sets
- Turning centre
- Turning tools
- Drill head
- 2-step motor

**The PROFI lathes are available in various models in terms of size and power range.
