

Mobile air purifier with HEPA filter – SMART

Description

Are you looking for a simple and affordable way to clean and make the indoor air safe? Then choose this professional mobile air purifier: the best choice for the cleanest and also healthiest indoor air quality. Thanks to the latest technology, the air purifier has a high air cleaning capacity and, thanks to the EC fan, high energy efficiency. In this way, it provides perfect air cleaning even in large and crowded environments! Moreover, this air cleaner has the largest HEPA filter surface in its class. A HEPA filter is the best kind of filter you can have in your air cleaner! With this filter, you make the indoor air free of pollution, including allergens, pollen, aerosol viruses and fine dust. This air cleaner is equipped with a programming module, which can be used via an app. Moreover, thanks to the programming, the air purifier does not need to be started and stopped manually on a daily basis. and stopped manually on a daily basis. This air cleaner is therefore the perfect solution and, in addition, it is plug & play, quiet and energy-efficient!

High-quality filter system

The air cleaner works with a high-quality filter system, which consists of two filter layers:

- G7 pre-filter (ePM1, 50%): the best option for capturing pollen and fine dust particles, extending the life of the HEPA filter
- H14 class HEPA Filter: to filter very small particles such as PM1; this filter stops 99.995% of air pollutants

Applications

Our professional BOA AIR high-capacity air cleaners are ideal for use in crowded and large indoor areas, thanks to their high airflow capacity and high ACPH.

Moreover, BOA AIR air cleaners prevent the spread of viruses, thanks to the applied H14 class HEPA filters.

Options:

Active 96 carbon filter : to stop bad smells

The Midi is available in 3 models:

BOA midi (art. 43111)

BOA midi with ionisation: (art. 43112)

BOA midi smart (can be used via app) (art. 43113)

Extra information

Item number	43113	
Model	BOA midi SMART	
EAN	8718242563413	
CBS Statistics number	84213985	
Article group	HUVEMA Workshop Equipment	
Brand	Bomaksan	
Features	Suction power - SLOW Mode	275 m ³ /uur
	Extraction capacity - ECO Mode	700 m ³ /uur
	Extraction capacity - TURBO Mode	900 m ³ /uur
	Dimensions	500 x 500 x 1200 mm
	Electrical consumption	0,028 - 0,18 kWh
	Sound level - SLOW Mode	27 dB(A)
	Noise level - ECO Mode	38 dB(A)
	Sound level - TURBO Mode	46 dB(A)
	Weight	72 kg
	Voltage	230 V
	Ioniser	No
Smart	yes	
Article group code	1945631
