

Teach in ProtoTRAK CNC bed milling machine

Description

Leave any competition behind you! How many companies in your area have a CNC milling machine with a 1500 mm spindle?

The Prototrak CNC is the most user-friendly control for single pieces and small series work. Quick programming without having to know a single code. No loss of flexibility compared to a conventional machine. Reduce your labour costs 4 to 10 times, every time, all the time.

Options

TRAKing[®] run your program with the handwheels

Off-line software

Featured functions

Transport the machine and place it on the workbench.

DXF Converter

Parasolid converter

Machine clamp

Spindle holder and milling cutter

Handle milling head

Remote control start/stop

Filling block 250 or 125 mm for increased capacity between spindle and table

Extra information

Item number	XF17101
Model	RMX 5000
EAN	8718242478458
CBS Statistics number	84596990
Article group	CNC
Brand	XYZ

Features	Engine power	5,75 kW
	Vertical spindle speed	40-5000 rpm (programmable)
	Table dimensions	1935 x 356 mm
	Longitudinal table travel	X-1524, Y-596, Z-540 mm
	Spindle taper	SK40
	Voltage	400 V
	2 Step speed	40-600 / 300-5000 rpm
	T-slots	4 pieces (M14)
	Longitudinal travel x-axis	1524 mm
	Cross travel y-axis	596 mm
	Height shift z axis	540 mm
	Quill power feeds	.038 / .076 / .15 mm/rev
	Quill travel	140 mm
	Quill diameter	116 mm
	Max table load	850 kg
	Head turnable left and right	45 / -45 °
	Distance spindle to column	610 mm
	Weight	3100 kg

Article group code 1282449
