

Polishing paste bar for plastics (beige)

Description

This beige polishing paste PP in PLAST version is used for high-gloss polishing of plastic rods.

Suitable for:

- high-gloss polishing with a soft cloth (TW)
- high-gloss polishing and shining with flannel (FL).

Features

Polishing pastes are used alongside felt tools with cloth discs for pre-polishing and high-gloss polishing. If you want to achieve a very smooth surface, use several or even all versions in succession.

Bars of polishing paste are available as **large- and small-volume** packs.

K-PP = small format

G-PP = large format

Machinable materials:

plastics

Machining tasks:

Polishing
