# Worktop MDF with stainless steel top 170 x 70 cm

## Description

---

High-quality worktop for your work table or workbench.

This robust worktop is made of high-quality MDF materials, known for their excellent stability and strength. In addition, the extra top layer of stainless steel gives the top even more strength. This makes it perfect for all your jobs and projects. Thanks to its sustainable construction and excellent resistance to wear, this worktop can withstand intensive use and last a long time.

This worktop is constructed from an MDF base coated with a special stainless steel top layer, giving the worktop extra protection against dirt, liquids, solvents, oil and grease. Moreover, stainless steel is extremely wear-resistant and with this worktop you have a heavy-duty surface for heavy technical applications or hot components. In addition, stainless steel is very easy to maintain and you will always have a clean workplace. Whether you are a professional working daily with heavy tools or an enthusiastic DIYer looking for a reliable worktop, we always have the perfect worktop for you!

This worktop is available in different sizes.

### Features:
